Chapter 1 by DANAIJSHA MCCLAIN

The Big Change

It's the middle of the night I'm sitting there with music blasting into my ear. I can't fall asleep because my parents are arguing. So I turned off the music and called my neighbor. (His name is James he is so sweet, nice, cute, funny and he is a great friend to me!) He picked up on the first ring and he is like "Hey you called." I'm like "yes." Then James asked "your parents are arguing again do you want me to come over?" Then I said "no I was wondering if I could stay at your house just until my parents are done arguing?" James is like "sure I'll come over and come get you" I said "thanks James I owe you!" Then James said no Fantasia that is what friends are for!" Next I hung up my phone and got my things ready and waited. Then I heard a knock on my window and then I opened it and James said "are you ready?" I said "yes!" Then I gave him my bags and then I got on his back and then we went on our way to his house. When we got to his window he put my bags in his room then helped me into the room and then he came in after me. Then I took my bag and sat it in his closet and then I said "where am I sleeping?" Then he said "on the bed I'll sleep on the floor." I said "no James this is your room and he interrupted me and said "we have this conversation all the time and it is the final you are sleeping on the bed and I'm

finally. Then at 6:00am the timer went off and James was already awake and I turned around and James said "get up sleepy head." I said "I don't want to get up." So he said "okay." Next he grabbed my feet and pulled me off the bed. Next I got up and went to the bathroom and got ready for school. Then I came out all ready and James said "all ready?" I said "yes." So we walked to school. When we arrived to the school my boyfriend was talking to his friends when he saw me he started walking towards James's and I and when he reached us he kissed me on lips and James said "um I'm going to go see you in class Fantasia." I said "yeah bye" Brett walked me to my first class called Expert Writing. So I walked over to my seat and James was already seated. The teacher started talking about boring writing stuff right when the bell rang. Then when you fall asleep in class you don't even know that the time flies by fast. When the bell rang Miss. Baker said "class dismissed." So after class Brett ditched me for his football team. James in the other hand waited for me after class for us to get donuts and coffee. After our snack James walked me home and when I walked in my parents were sitting there waiting for me. When I walked in they told "me to sit" and I did. Then my mom is like Fantasia sweetie baby um.....your dad and I was thinking about getting a divorce. Then it all hit me all the pain I couldn't listen anymore. So I grabbed my book bag and stormed up stairs and when I reached my door I slammed it so hard that the pictures in the hall way fell off. I took my hand and slid everything off my dresser onto the floor. I threw my snow globes at the wall. I punched my fist through the wall and it hurt like hell. Right when I did that I started crying, screaming, and yelling.

Ruined

I decided to stay home after the big change. So I texted James and told him "that I'm not going to school." Then James texted back "need a friend" I said "no I'm fine." Then he texted back "open the window let me in." I said "fine whatever." Then James showed up and stepped in my room and said "what happen?" Then I was trying to explain it and then out of nowhere I sat down on the floor and started crying. Next James came over by me and lifted me off the ground onto the bed. Then he sat me on my bed and pulled the covers on me but then he sat by me and pulled me

me?" He said "yes it's not you it's me." I hung up the phone and then went into the bathroom. I took a shower and changed into my PJ's and I saw James leaving then I said "what wait where are you going?" Next James said I thought you need privacy to yourself and then I said "no." Then he said "okay I'll stay." Then when I heard him say that he would stay I said "thank you!" So I went over to my bed and layed down and started crying again and James said "did Brett say something to you?" Then I said "maybe?" Then James said "what did he say to you I will go beat the crap out of him for you." "Well he broke up with me." Then James pulled the covers back and scooted me over and laid by me. Then when he got settled in he scooted closer to me and said "you will never have to worry about losing me because I will always be there for you know matter what!" Next I said "thank you!" Then he said "goodnight sleepyhead love you!" I said "love you too goodnight Jam!" Then he looked at me and kissed me on the cheek! Then I turned around and he put his hand around my body and I leaned into him and fell asleep. Then I woke up with James legs tangled around mind and I turned around to him and he said "good morning sleepyhead!" I said you too Jam!" Then my dad walked into my room and he saw James and he had an beer bottle in his hand. James said "I should go." Then I said "no." Then my dad said "yes leave go away." Then he started charging at James to hit him with the beer bottle, but then I got in front of James and then the glass comes smack down on my head. The glass broke and blood is dripping down my face. James grabbed me and picked me up because I passed out from losing so much blood, but then he carried me out the window. Then to his house and he brung me to his mom because she is a nurse. Then when I was starting to awake I heard his mom say "did you tell her about the secret." Then James said "if I do she is going to hate me so much." Then I turned my head and said "what happen?" Then James came over by me and said "finally sleepyhead you're awake!" Then I said yeah, but when I tried to sit up my head started pounding like crazy. Then James mom said "James take her back to her house." Then he said "okay." James carried me home and laid me in my bed. "No don't leave." "I have to go I'm sorry." "Please don't leave me you are the only person that cares about me!" Then James said "I Have to leave before the sun comes out." I said "okay that is fine with me." I took his hand and dragged him by me and then I pulled myself close to his chest, but when I did that James put his hands around me!" Then before I closed my eyes I said "my life is ruined because everyone is leaving me excepted you." Then

James said "I will always be here for you!" He said "goodnight sleepyhead love you!" I said "love you too Jam!"

I interrupted and said "you don't need to be scared to tell me anything."Then he said "I will just tell you tomorrow." I said "are you sure?" He said "yeah." James said "I have to go see you later."I said okay night Jam!" James just walked out of my window without another word to me.I took a shower and wrote in my jounal and then went to bed.In the morning at 5:30 I got in the shower and changed PJ's and went over to James window and I knocked and he let me in.When I walked into his room I can see in his face that something is wrong with him.He is freaking out so I asked "what is wrong?" James said "nothing." "Why would there be anything wrong with me?"Next I said "Jam" He said "Fantasia you need to go" I said "why?"Then he started to comb his hair threw his fingers then I came over there and said "please talk to me."He said "get away from me."Then I said "Fine be that way I don't care"Next Thing I knew it James was in front of me with the window shut and locked it.I said "how did you get here so fast you were on the other side of the room?"Next he said "that is what I'm trying to tell you."
